An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James DeCamp on November 10, 2005.

The application has been amended as follows:

Please replace the title of the specification with the following new title:

Antibodies to a YYX epitope of a mammalian prion protein.

Please cancel claims 25-80.

Please amend claim 19 as follows:

Claim 19: The method of claim 18, wherein said antibody does not ~~substantially bind~~ specifically bind PrP^C.

The following is an examiner's statement of reasons for allowance:

The prior rejections are withdrawn in view of Applicant's arguments. Pre-binding of the prior art antibodies to the prion protein (PrP^{Sc}) did not block the binding of the instantly claimed antibodies to the PrP^{Sc}. Thus, the prior art antibodies do not bind to the same structures as the instantly claimed antibodies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
